

BF-60

Automatic Mechanical Bar Feeder

REQUIREMENTS:

- ❑ Fanuc Control
- ❑ Other controls can be interfaced and charged for separately
- ❑ Spindle orientation if hexagon or non Round bar is used
- ❑ Reducing tubes for various bar sizes

FEATURES:

- ❑ PLC Controlled automatic short type bar feeder.
- ❑ Optional Servo Feed System.
- ❑ Simple operation.
- ❑ 10mm to 60mm diameter capacity.
- ❑ Available in 1.2 and 1.5m lengths.
- ❑ Bars do not have to be absolutely straight.
- ❑ Bars do not have to be the same length.
- ❑ Easy and quick change over from one size of bar to another.
- ❑ No part of the feeder rotates, this allows unrestricted spindle speeds provided a reducing tube is fitted into the spindle.
- ❑ Ideal for both short & long run production.
- ❑ Minimal floor space is required.
